

HOW TO MEASURE YOUR FINGER CIRCUMFERENCE ?

1. Take a ring (an alliance for example) that you can put on the finger on which you will wear your new ring
2. Place the ring on the circles below. Your finger size corresponds to the circle whose back line appears entirely inside the ring
3. If the ring is in between two sizes, we recommend you to choose the biggest one.
For information, the average size is between 52 and 53
